As detailed in a Statement from Clubs NSW to the media:

NSW clubs remain open for business, and the public can be assured that their local club is a safe and hygienic environment, with no detected cases of COVID-19 to date at 1200 venues across the state. The Prime Minister and Chief Medical Officer (CMO) were clear in their advice that while non-essential mass gatherings such as sporting events and concerts will have to be reviewed, people should go about their everyday lives. Day-to-day club operations will be unaffected, and venues have already taken proactive steps to ensure that your local club is a safe place to enjoy a meal and a drink.

Whilst some of the measures taken may appear extreme, I can assure you that they have been made only to ensure the health and safety of the community. Please rest assured that the situation is being closely monitored and changes can and will be made daily to keep our Members safe and if at any stage new measures are seen to be unnecessary they may shortly thereafter be modified or revoked.

We appreciate your patience and thank you for your continued support and patronage of the Kiama Leagues Club.

Best wishes for your health and well-being and that of your family and friends.

Sincerely,

**Jesse O'Brien
General Manager
For and on behalf of
The Board of Directors**
